

Please do not allow LPFM to interfere w/K-LOVE in our area. This station serves as the only contemporary Christian radio station in our area. The loss of this radio station in our area would be devastating to many families, especially those w/teens who have no other alternatives for Christian radio whatsoever. I believe the service provided by K-LOVE is a positive influence in our community and much of the music on other radio stations is certainly anything but positive. It is in the best interest of our community to continue receiving K-LOVE. Please do not allow LPFM to force this FM translator off the air by giving them priority. Thank you for your time and consideration.
